Welcome Letter

Dear colleagues,

The Hellenic Group of Sarcoma and Rare Cancers (HGSRC) is pleased to welcome you in **Athens**, at "**Alexandros Soutsos Museum**", on **December 8-10, 2023** for the **6th Masterclass of Sarcoma and Rare Cancers**. The event aims to induce an interest in the challenging field of sarcomas amongst the medical community, by combining background knowledge and contemporary developments in the diagnosis and management of these rare diseases. The Masterclass is addressed to pathologists, oncologists, radiation oncologists, radiologists, surgeons as well as any other scientific groups with special interest in sarcomas.

The sessions held during the Masterclass will include a thorough presentation of the clinical, morphological and molecular characteristics of different sarcoma subtypes, with emphasis on the latest diagnostic and therapeutic advances in each area. A prestigious faculty from Europe and the USA representing various disciplines involved in the management of sarcomas ensures the highest quality of the scientific and didactic sessions.

The success of this effort relies upon comprehensive work, but also on everyone's dedication and active support.

Within the grounds of the Masterclass of Sarcomas and Rare Cancers, we wish to welcome you and warmly thank you for your participation.
